At Sts. Bruno & Richard School, learning comes to life in a warm, faith-filled community where every child is truly known, valued, and encouraged to shine!

Our academic program keeps young minds curious and challenged—with small class sizes that give students the individual attention they need to thrive.

In Pre-K through 1st Grade, our little learners enjoy fun and engaging dual-language instruction in both English and Spanish!

We also bring back the beauty of cursive writing—helping students strengthen their motor skills and express themselves with confidence.

Whether it's after-school clubs or summer enrichment adventures, there's always something fun and exciting going on beyond the classroom.

And every day, our students grow in their Catholic faith—learning to lead with kindness, purpose, and heart.
